

Figures

Fig. 3

- 44: Retrieve one data block after the other from computer system's storage
- 5 45: Final data block?
- NO
- YES
- 46: Current data block = multiple of N?
- NO
- 10 YES
- 47: User-specified ratio (N)

Fig. 5

- 44: Retrieve one data block after the other from computer system's storage
- 15 45: Final data block?
- NO
- YES
- 46: Current data block = multiple of N?
- NO
- 20 YES
- 50: Monitor delay or acceleration of the computer system in comparison to the fast scanner, and readjust as needed

Fig. 7

- 25 45: Final data block?
- NO
- YES
- 46: Current data block = multiple of N?
- NO
- 30 YES
- 47: User-specified ratio (N)

Fig. 9

45: Final data block?

NO

5 YES

46: Current data block = multiple of N?

NO

YES

10 60: Monitor delay or acceleration of the computer system in comparison to the fast scanner, and readjust as needed
